CERTIFICATE OF CONFORMITY

We hereby certify that all replacement parts, build in Tenneco Automotive Europe, have been produced in accordance to the Tenneco Automotive Europe Quality Standards.

All controls have been performed according to the written instructions, drawings and specifications.

All converters, exhaust systems and supporting parts are engineered and manufactured under ISO 9001 conditions.

Converters and exhaust systems are approved to the applicable European Regulations.

All systems are inspected and controlled under these conditions.

October 25, 2007

A handwritten signature in purple ink, appearing to read "J. Fokkens", with a long horizontal stroke extending to the right.

Jan Fokkens
Director Quality, Environment, Health & Safety
